NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simla.

REMARKS

The figures of births and deaths shown in this statement for week ending the 20th September, 1951, relate to 151 towns with an estimated population of 10,439 thousands. The total number of towns is 254 and their population is 31,142 thousands. Thus 59% of the total number of towns representing 62% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 16,904 and 7,514 representing birth and death rates of 45.2 and 20.1 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 133 towns with an estimated population of 17,625 thousands. Information about Assam, Bihar, Madhya Pradesh, Orissa & West Bengal could not be included. The total number of towns is 210 and their population is 26,790 thousands. Thus 61% of the total number of towns representing 60% of the total population is covered. The numbers of births

and deaths recorded in these towns were 15,962 and 6,938 representing birth and death rates of 47.1 and 20.5 per thousand of population respectively. The table at the end gives the position by States.

Mayuram in Madras was the only town which had a high death rate of 60.2 per thousand of population and this high death rate was not due to any one of the specified causes.

(B) States (Part B).—The data here relate to 18 towns with an estimated population of 1,814 thousands. The total number of towns is 35 and their population is 4,313 thousands. Thus 51% of the total number of towns representing 42% of the total population is covered. The numbers of births and deaths recorded in these towns were 942 and 576 representing birth and death rates of 27.0 and 16.5 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
